East Carolina/Hyde County Partnership Listening Session

Please join us for a listening session designed to further a partnership between East Carolina University and Hyde County, NC. This listening session will be designed to explore how ECU can support County Officials, Industry Leaders, and Community Leaders in their efforts. How can ECU partner with you or your group/organization to support your efforts?

Please mark your calendars, RSVP, and begin brainstorming on how we can make Hyde County and all of the communities within better places to live, work and grow.
