COVID-19. How To Get An Appointment

For immediate release

January 22, 2021

Today, the COVID-19 counts are as follows:

- Active Cases 90
- Recovered Cases 501
- Deaths 7
- TOTAL COUNT 598

To further break this down, 52% are white, led by 24% black or African American; 62% are male, 40% are ages 25-49 years old. Of the total cases, 33% have come from a congregate living setting association; and 31% of cases have comorbidities. Review these percentages with caution, because several of the case criteria are listed as “unknown.”

Besides healthcare workers, COVID-19 vaccine continues to be pushed out to individuals 65 years of age and older. To schedule an appointment at the Hyde County Health Department, **please call 252-926-4467**. To schedule an appointment on Ocracoke, **please call 252-489-3622**. At either facility, leave a message if you do not talk to someone. Please be patient while waiting for a return phone call, and do not call back, as this ties up the phone lines.

After receiving your shot, you must continue to practice the 3 Ws - ***Wear a facial covering, Wait 6 feet, Wash your hands frequently.***

The Hyde County Health Department continues to perform COVID-19 testing for those who have symptoms or request a test. To schedule an appointment for testing, please call 252-926-4399.

For 24/7 on-call services, dial 1-866-462-3821, the Coronavirus Hotline.

Get your information from reliable sources, such as:

- CDC, www.cdc.gov/Coronavirus
- NC Division of Health and Human Services, www.ncdhhs.gov,
